Education

GLA University

B.Tech in Computer Science —

Mathura, UP

August 2022 – May 2026

Gyan Deep Shiksha Bharati

Senior Secondary(10th,12th)

Mathura, UP

Relevant Coursework

Object-Oriented Programming, DBMS, Data Structures and Algorithms, Operating Systems, Computer Networks, Full Stack Web Development

Technical Skills

- **Languages:** Java, C, Python
- **Frameworks/Libraries:** Node.js, Express.js, MongoDB
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Tools:** VS Code, GitHub, Git

Projects

Automatic Irrigation System

- Designed and implemented a microcontroller-based irrigation system with soil moisture sensors for automated water supply.
- Reduced water usage and improved crop yield efficiency through sensor-driven irrigation scheduling.

Sun Tracking Solar System

- Developed a dual-axis solar tracking mechanism using sensors and motors to optimize solar panel alignment.
- Increased energy output by maintaining optimal panel orientation throughout the day.

Developed a Chat Application

- Made a real-time chat app for sending and receiving messages.
- Added features like user login, private chat, and message saving.

Weather Web Application

- Developed a real-time weather forecasting web application using HTML5, CSS3, and JavaScript (ES6+).
- Integrated OpenWeather API to fetch and display live weather data, including temperature, humidity, and wind speed.

Certifications

- * Lean Six Sigma White Belt Certification.
- * Completed NPTEL Certifications in Engineering And Business Courses
- * Certification in Competitive Programming From Coding Blocks

Extra Curricular

- Photography
- Photo and Video Editing
